

ORAJET® 3174 Series

Your environmentally friendly alternative in digital printing films.

ORAJET® 3174 is a PVC-free alternative to the traditional digital printing films. Made from polypropylene, this 100 micron material has been designed for indoor and short-term outdoor applications.

The ORAJET® 3174 Series include options for both glossy and a matt surfaces, making it the ideal base for any print regardless of what finish you are looking for in your design. The environmentally friendly way.

The series include:

- ORAJET® 3174
- ORAJET® 3174X
- ORAJET® 3172XG

Engineered to Perform Better™
