

**NEW!**

# ORAJET® 3851 Digital Printing Film

## Digitally printable film for glass decoration

Whether for artistic effect or simply to create privacy, the new ORAJET® 3851 is the perfect modern alternative to traditional etched glass, with its ability to be also digitally printed. The prints will look outstanding with a subtle shimmery look coming from the vinyl. With its long term durability (7 years\*), it is an ideal choice for applications onto shop windows and glass doors.

The material is printable with solvent based inks or UV inks.

*\* not printed*

## Product benefits include:

- Digital printing film
- Printable with solvent based inks or UV inks
- Polymeric PVC film
- Medium glossy surface
- Available in silver grey (fine structure)
- For long term applications on glass, e.g. shop windows and glass doors
