

Ferro PET Film 180 μ

Ferro PET Film 180 μ is an inkjet printable polyester film with a ferrous anti-rust black coating that adheres to magnetic surfaces. Combined with Sentec Magnetic Base 700 μ it meets the B1 standard for fire retardancy making it the perfect choice for changeable graphics. It is durable, safe and can be used in multiple layers.

Compatibility overview

Compatible with (Eco)Solvent, Latex and UV-cure inks.

Water based

(Eco) solvent

Latex

UV-cure

Physical characteristics

- Surface: Satin
- Print side: Polyester
- Reverse side: Ferrous black coating
- Thickness: 180 μ
- Weight: 380g/m²

Custom sizes are available with minimum order quantities required

Features

- Flexible polyester base
- PVC-free
- Adheres to magnetic surfaces
- Anti-rust
- Can be installed by untrained personnel
- Reduces the life-cycle cost for signage

Applications

- Interior decoration
- Indoor retail advertising
- Trade show graphics

Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

We strongly recommend to read the Sentec support document on Magnetic and Ferro coated media.

Important:

Before using the media the user must examine the suitability of the media for each application. We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.
