Thank you for choosing ClearPlex Windshield Protection Film!

Product Care Requirements for ClearPlex Windshield Film Warranty:

- For proper bonding of ClearPlex film to your windshield, avoid using a commercial car wash of any kind and exposing the vehicle to rain and/ or high wind environments for a period of 72 hours after installation.
- In order to protect the hard coat of your ClearPlex Windshield film and maintain the original condition of the ClearPlex Windshield film, apply a small amount of ClearX HD, available from your dealer, to your ClearPlex Windshield film at the time that the film is installed on your windshield, and at least once per month during the life of the ClearPlex Windshield film.
- Remove any debris from the windshield wipers. Debris not removed prior to using the windshield wipers can scratch the film.
- Always use washer fluid when cleaning the windshield with wipers. Do not run the windshield wipers dry, as dry debris on the wipers or windshield can scratch the film.
- Clean your ClearPlex Windshield film regularly to remove staining items such as tree sap, bird droppings, tar, oils and bugs. Avoid using any cleaning solutions that contain petroleum distillates, alcohol and silicone oils or like ingredients. Use a mild soap with water mixture, and a soft cloth to clean.
- Do not use any sort of acid wash on ClearPlex Windshield film, as it will ruin the film.
- Do not use sharp objects on the ClearPlex Windshield film. Windshield scrapers are fine, just make sure any type of scraper edge is not chipped or pitted. If your windshield wiper or scraper is damaged, immediately replace it before use on the film.
- **WHEN WASHING YOUR VEHICLE, DO NOT USE HIGH PRESSURE SPRAYERS ON THE WINDSHIELD OR ON ANY OTHER WINDOWS WHERE CLEARPLEX FILM IS APPLIED. DOING SO COULD DAMAGE THE FILM AND VOID YOUR WARRANTY.** To clean your windshield and other windows with ClearPlex film applied, use only soap and water with soft cloths. No abrasive materials should be used.
