Thank you for choosing Protekt® PPF!

## Congratulations!

## Care Instructions:

**Allow 3 days for Protekt PPF to properly cure before washing or waxing your vehicle.**

No special care is necessary for Protekt PPF as it is virtually self-healing. Light scratching will eliminate over time. When washing, avoid using a high pressure washer with the nozzle any closer than 36" from surface or edge of the film to avoid peeling or damaging the film's protective surface.
