Inspiring Glass Finishes

2019-2020 Collection
3M Architectural Markets

The 3M™ Glass Finishes range are state-of-the-art products, featuring unique designs that are in synch with the market trends. Elegance and functionality meet durability.

Tested for their durability, 3M Glass Finishes are easy to apply and maintain.

Glass

Glass is an essential design element in the construction of a new building, whether offices, showrooms or shopping centres. Facilitating natural light and visual comfort, glass is a key contributor to well-being and productivity.

Glass Design

Yet glass is not just functional, in design terms it is synonymous with transparency, luminosity and elegance, and the 3M Glass Finishes range offers a broad range of creative options for any design concept.

Privacy

Whether complete or partial privacy is required, 3M Glass Finishes have the solution.

3M Dichroic Films	32

Our solutions

Visually pleasing and customisable to suit current trends or customer requirements, choose from charming polished glass designs or add shades of colour to transform any type of glazed surface.

Lasting elegance

3M's experience in glass finishes ensures fast, safe and durable application for your long-term peace of mind.

Flexibility

3M™ Glass Finishes are suitable for indoor and outdoor application. The materials are flexible and easy to apply, reducing the time and cost of application, and they can be removed at any time.

Functional aesthetics

Creativity is only limited by your imagination, not your budget. 3M glass finishes offer shades of colour and opacity at a fraction of the cost compared to traditional etched or screen printed glass, and with the flexibility to change your look with the changing fashions or with your changing needs.

Applications

3M glass finishes have an almost unlimited range of applications:

- Offices and banks
- Shopping centres, shop window displays, showrooms
- Hotels, restaurants, bars and other public places
- Gyms and spas

As well as windows, these solutions are ideal for the refurbishment of passageways, atriums or skylights. And not just for commercial application, they provide stylish, customisable finishes from glass doors, walk-in wardrobes, shower cubicles and mirrors in a residential environment.

Infinitely versatile
over 100 Finishes

3M™ Fasara™ Glass Finishes

The 3M Fasara glass finishes range is made from premium polyester film. Available in more than 100 innovative designs, it is an easy way to transform your window or glass panel in meeting rooms, conference areas or waiting rooms.

Whether your desired effect is creative, privacy or conspicuity, this film also enhances safety thanks to its construction which holds together breaking glass and reduces UV radiation up to 99%.

Technical properties

- Top-quality, durable polyester
- Latest adhesive
- 0.075 mm thick.
- Guaranteed against yellowing and detachment.
- Roll dimensions: 1.27 × 30 m / 1.22 × 30 m

Cleaning and maintenance

Wash with water and a soft cloth, using a mild, non-abrasive detergent if necessary.

Durability

Up to 10 years
