

SMOOTH COLOUR TRANSITIONS

Dichroic films by ASLAN

COLOURSHIFT IN TRANSPARENT, OPAQUE & ETCHED GLASS FINISH

ADVANTAGES

- ➔ The eye-catcher: Specifically designed to create visual highlights
- ➔ Three dichroic effects and eight shades
 - 2x transparent: Solar & Nebula
 - 4x opaque: Aurora, Alpha, Andromeda & Plasma
 - 2x etched glass: Luna & Nova
- ➔ Offer a wide light spectrum with smooth, continuous colour effects
- ➔ Outdoor durability of up to three years
- ➔ Digitally printable for custom messaging
- ➔ Dimensionally stable, no shrinkage
- ➔ Printable with UV curable inks (SE 70 and SE 71) as well as (Eco-)solvent and latex inks (SE 77)
- ➔ PVC-free (SE 70 and SE 71)

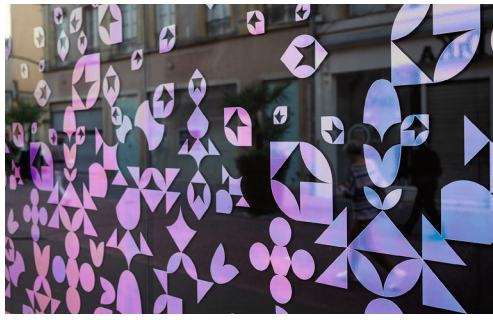

Three product solutions that support the core business of the sign making industry in creatively designing visual communication tools. Ideal for making lasting impressions in retail, on exhibition stands, and with your brand.

Transparent, opaque, etched glass – three effects of the dichroic, self-adhesive films from the ASLAN ColourShift series with eight different shades create stunning visual highlights in mere seconds, depending on the light and viewing angle. They add subtle accents in grey environments, with transparency, privacy, and etched glass effects:

ColourShift ASLAN SE 70 – Transparent

ColourShift ASLAN SE 71 – Opaque

ColourShift Etched ASLAN SE 77 – Etched glass finish

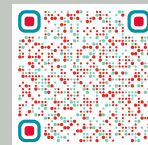

ANWENDUNG

For creating attention-grabbing effects and decorative privacy screens on (glass) surfaces, both indoors and outdoors.

- For cut vinyl lettering as well as large-scale applications on smooth surfaces such as shop windows, tempered acrylic glass, sales displays, glass doors, mirrors
- Retail and store design
- Interior design
- Window display design and behind-glass applications
- Glass partition walls in office spaces
- Point-of-Sale and Point-of-Purchase
- Art installations and museums
- Hospitality, gastronomy, and event sectors
- Exhibition stand construction
- Craft market
